

DOWNTOWN SECURITY NETWORK EMERGENCY ACCESS CARD REQUEST

*A service of the Downtown Security Network,
funded through the Special Services District*

In an effort to better serve you in the event of a downtown emergency, the Tampa Downtown Partnership (TDP) maintains a database of key personnel, initially allowed access into downtown following a disaster. This list is provided to the Tampa Police Department (TPD) to assist with re-entry. Emergency Access Cards are provided to Level I and II responders who will present the card AND photo ID at reentry checkpoints. Reentry is at the full discretion of emergency personnel, based on the safety & security of the downtown area. TPD requests a maximum of five Level I responders per building and a maximum of three Level II responders per company. Please contact the Partnership for special consideration.

Please Note: There is a \$5 charge for replacement cards due to loss, name changes and for all special consideration cards that exceed the maximum allowed. Cards do not expire. Downtown residents do not need a card—photo ID with downtown address is sufficient.

Level I RESPONDER—Downtown property managers/owners, facility management, engineers, contractors, security personnel, etc. - those trained to determine the safety and security of a building. Limit 5 per building.

Level II RESPONDER—Tenants, company CEOs, company directors/managers, etc. - those responsible for company operations. Limit 3 per company.

Fax completed form to 813-229-1328 or email to Michele Smith at msmith@tampasdowntown.com.

Submit a separate form for each individual property. Please allow 14 days for processing. In the event of a hurricane, access cards will not be produced within 48 hours of projected landfall.
